12:30 – 13:30	Lunch break
13:45 – 17:30	PART 2: Thematic Sessions

The way towards Digital Single Market

The EU introduced multiple digital initiatives to increase **approximation among Member States**

1. **Roam like at home**, since 2017 in the EU same mobile service prices as at home
2. **eIDAS regulation**, enabling identification & trust services across borders
3. Re-usable **Digital Service Infrastructures (DSI)**, enabling public services across borders
4. **Startup Europe**, increasing networking opportunities for startups, investors & accelerators
5. Policy documents on **Digital Transformation of Health and Care**
6. **The Digital Skills and Jobs Coalitions**, tackling the lack of digital skills in Europe
7. Other initiatives that open up digital opportunities for people and business

The way towards Digital Single Market

Approximation between EU and EaP - through “20 Deliverables for 2020”, specifically – targets under “Harmonisation of digital markets”

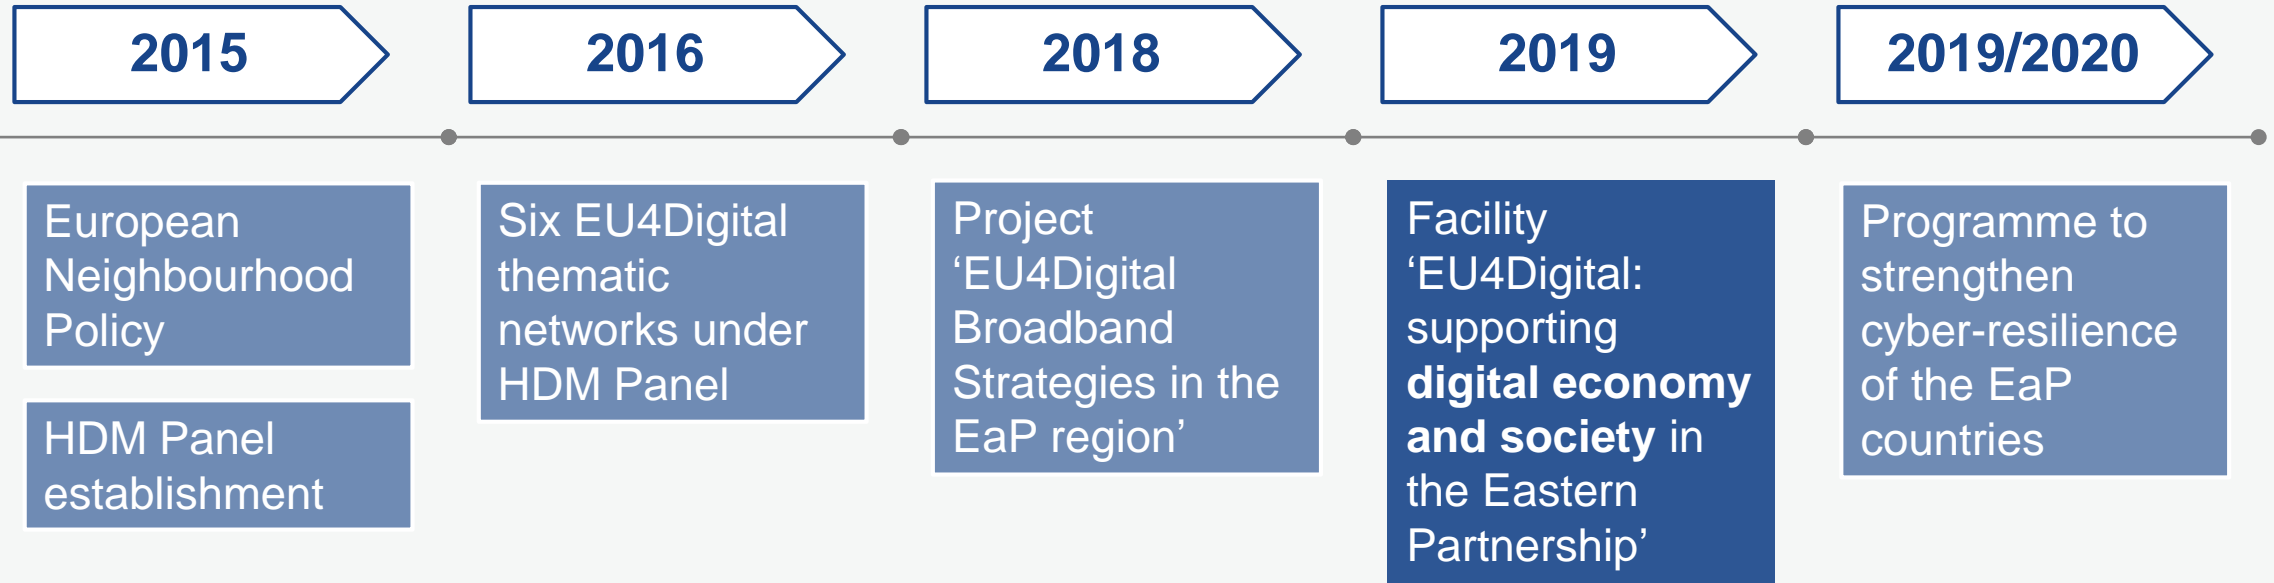

1. Harmonised **roaming** pricing and reduced roaming tariffs among the Partners
2. Pilot in place for interoperable cross border **eSignature**
3. Pilot in place for cross-border **eTrade** among EaP countries and with the EU
4. National **digital skills strategies** formulated and implemented by all EaP countries, in line with similar EU strategies
5. Other 11 targets

EU4Digital project – a part of bigger agenda in Eastern Partnership

EU4Digital

Many components fall under EU4Digital initiative

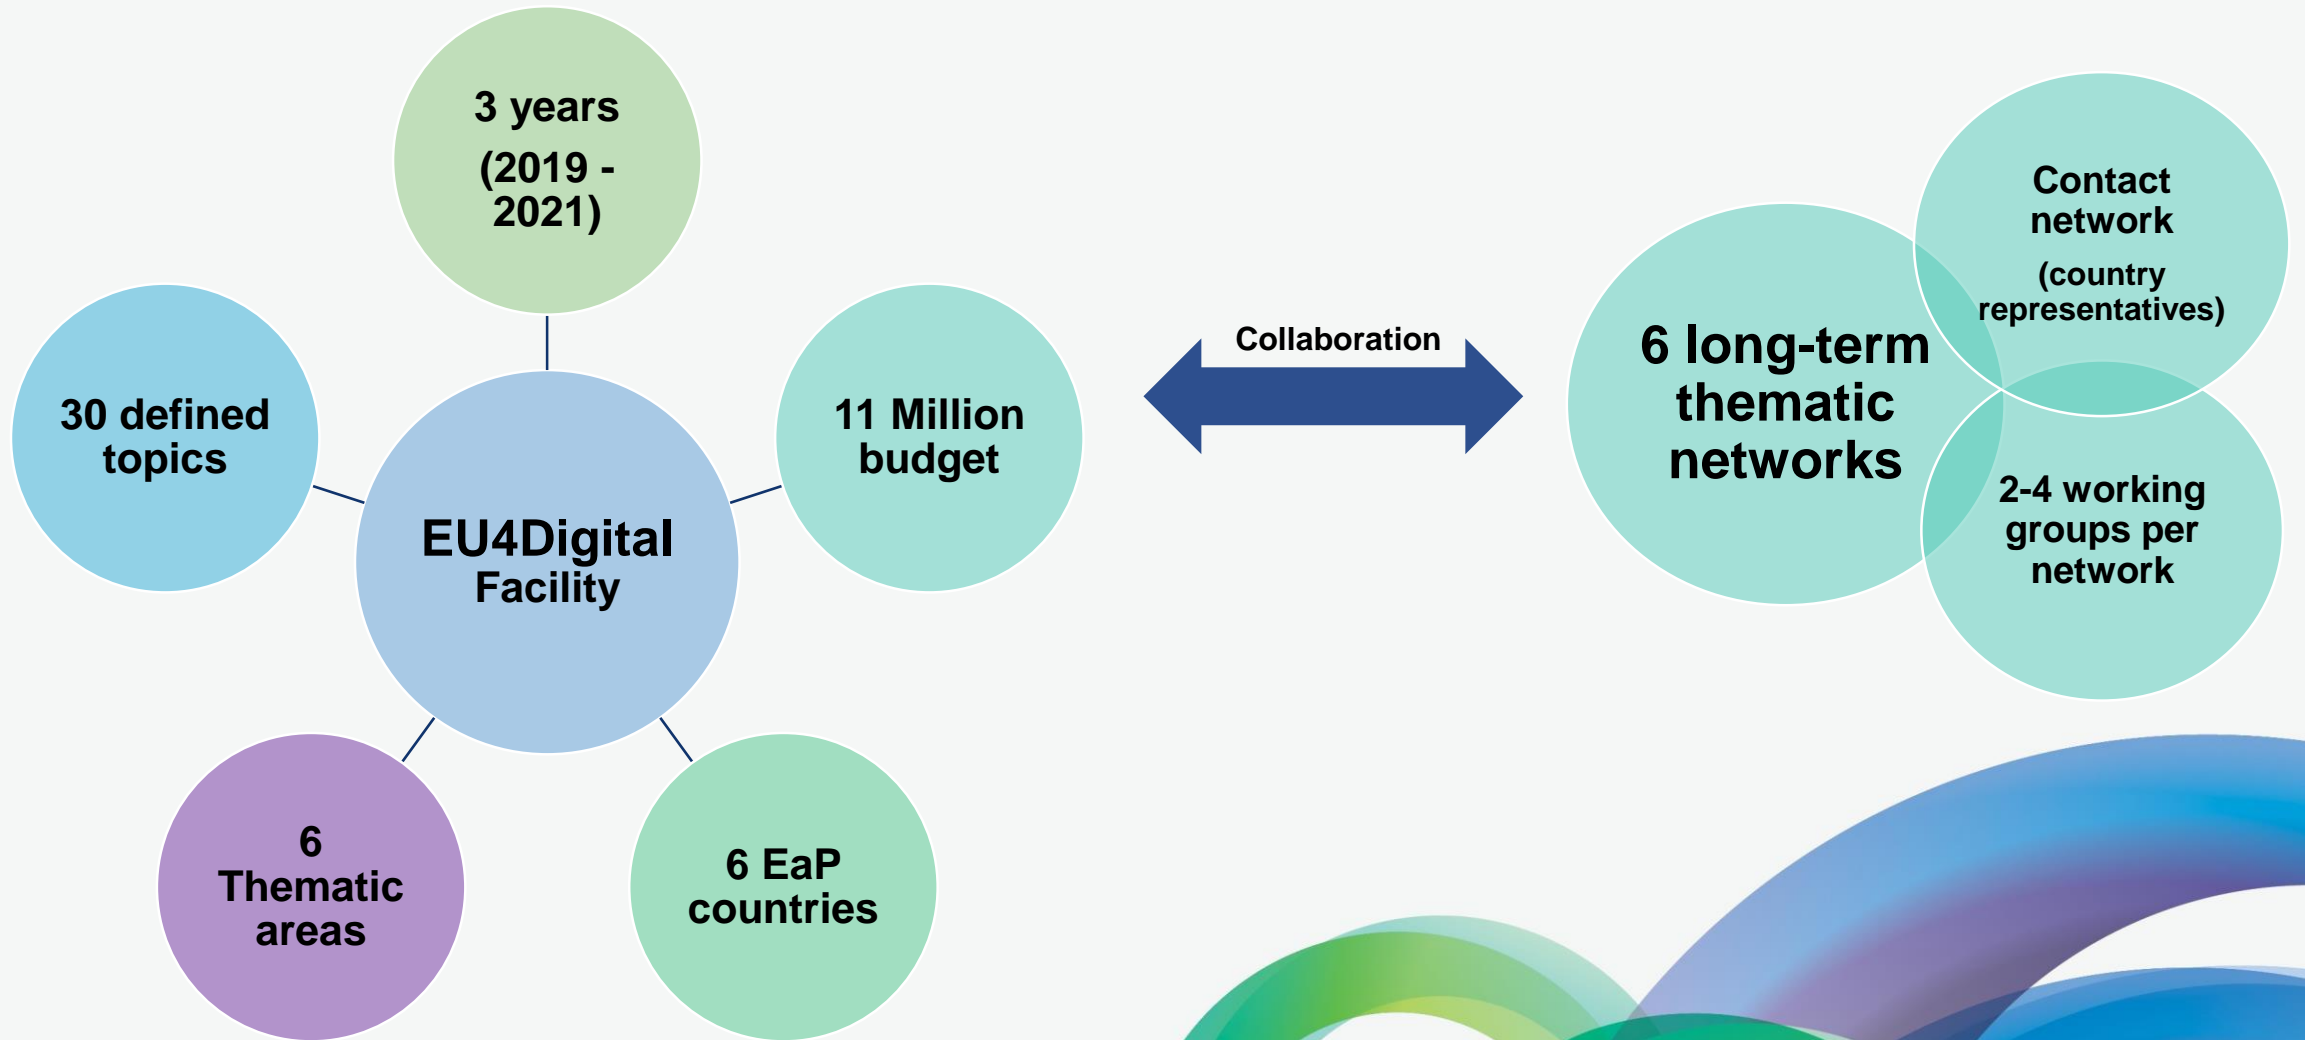

Also, bilateral, twinning, TAIEX and other projects are happening in the countries

EU4Digital

EU4Digital brings regional benefits

EU4Digital

EU4Digital

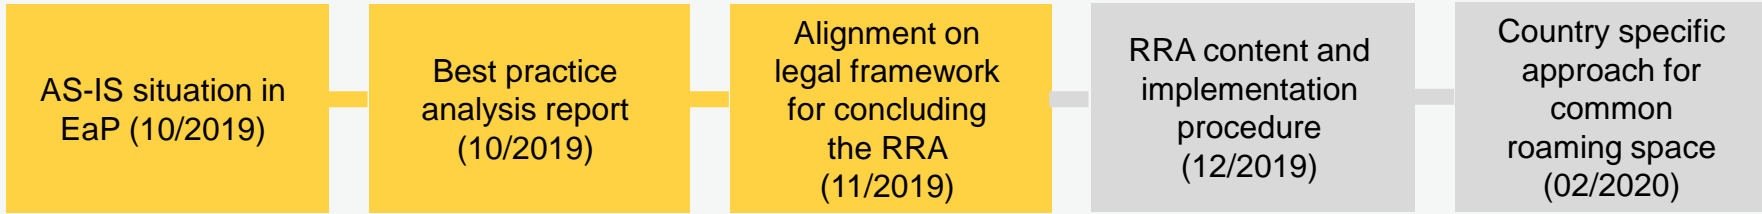

Thematic activities under EU4Digital Facility

Results, challenges and plans ahead

Telecom Rules – Year 1 dashboard

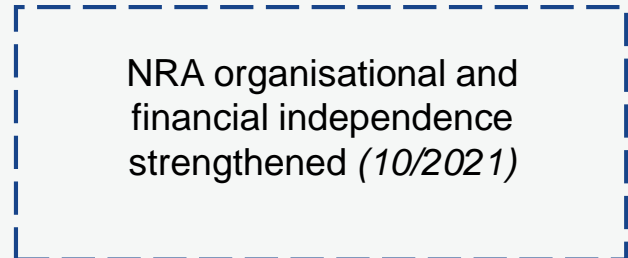

1.1 International roaming

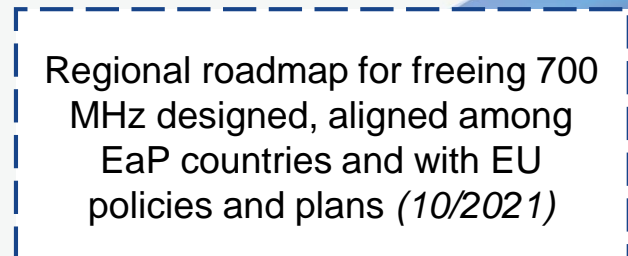

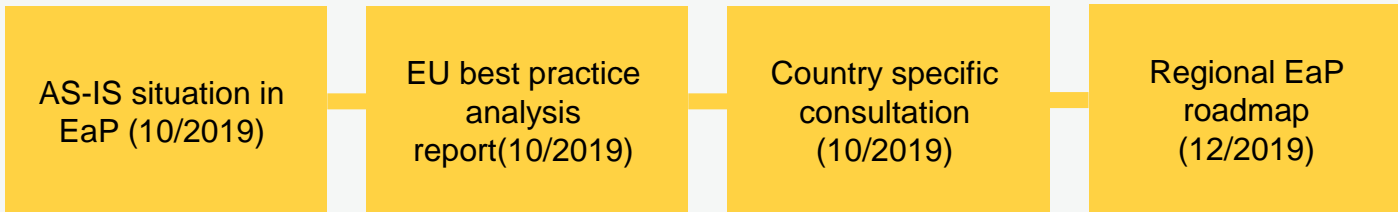

Final outputs

1.2 Independence of NRAs

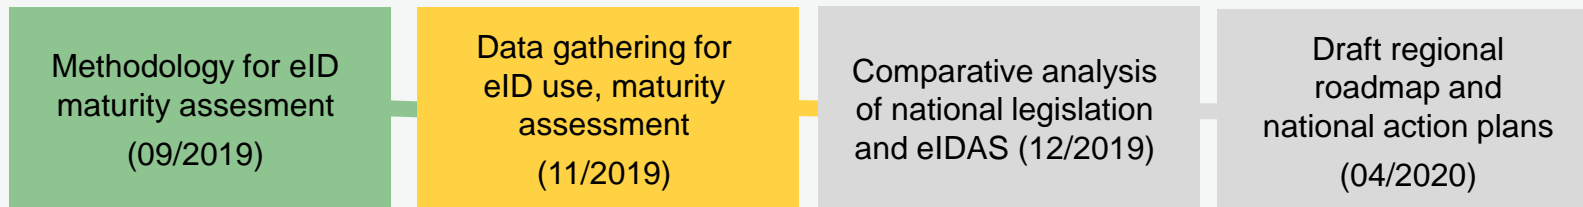

1.3 Freeing 700 MHz

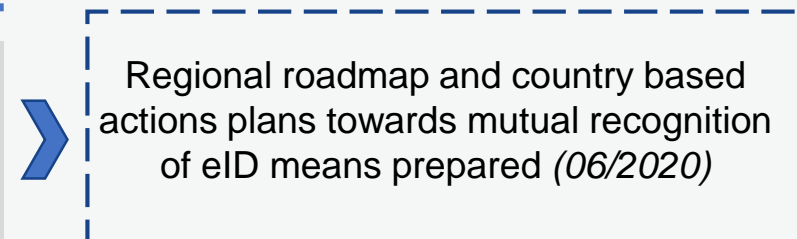

Trust & Security – Year 1 dashboard

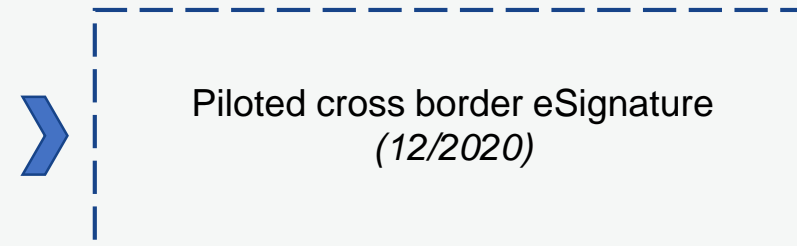

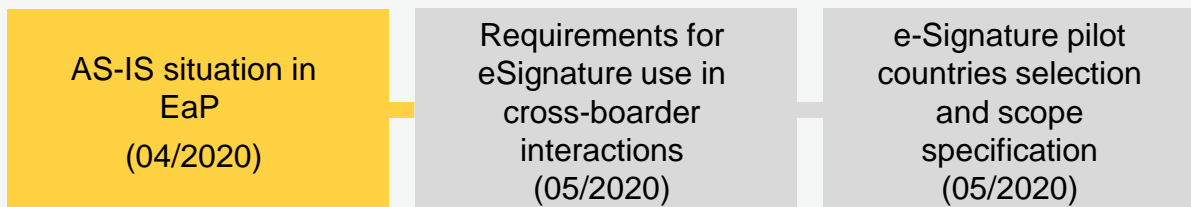

2.1. Recognition of eID

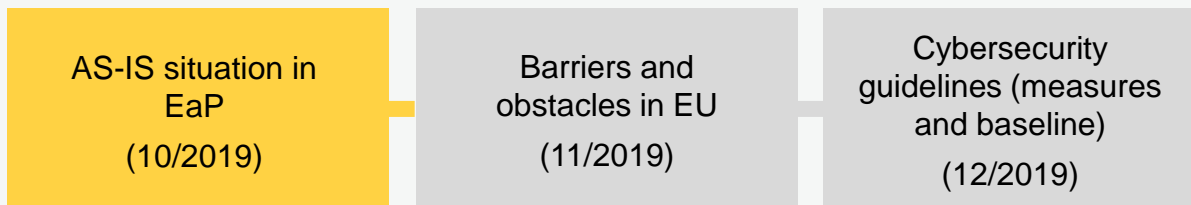

Final outputs

2.2. Pilot eSignature

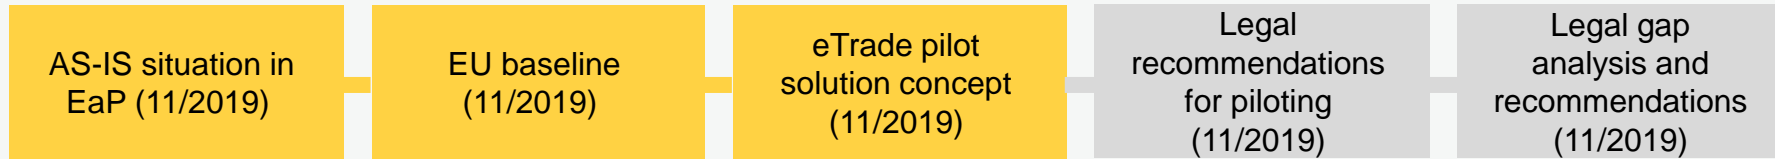

2.4. Cybersecurity guidelines

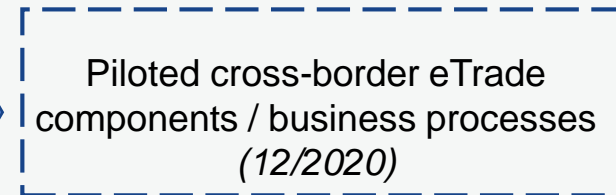

eTrade – Year 1 dashboard

3.1 Pilot cross-border eTrade solutions

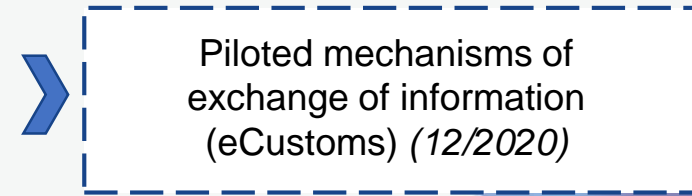

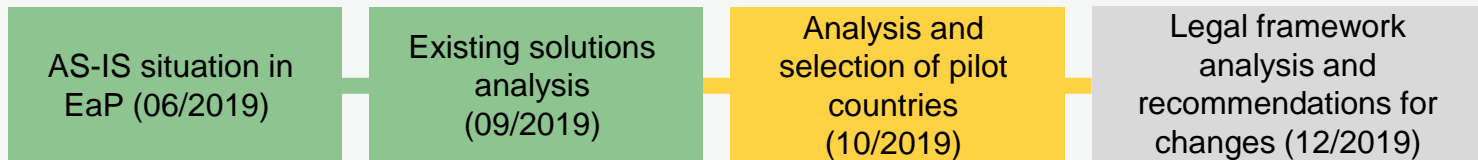

Final outputs

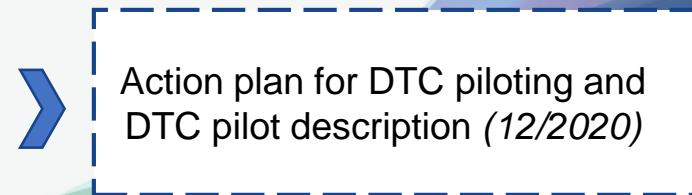

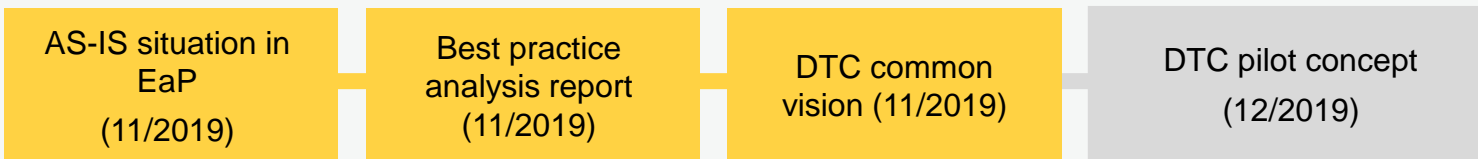

3.2 Stakeholders networking

3.4 Pilot mechanisms of exchange of pre-arrival info

3.5. Preparatory actions to pilot DTC

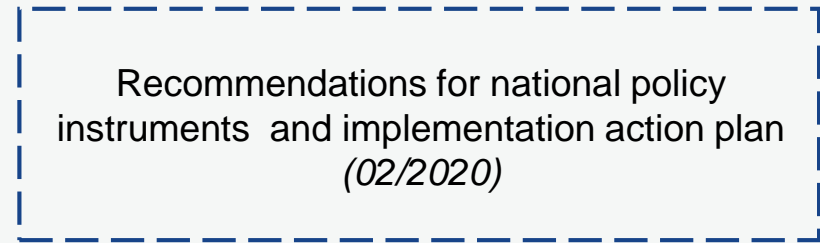

ICT innovation & Start-up ecosystem – Year 1 dashboard

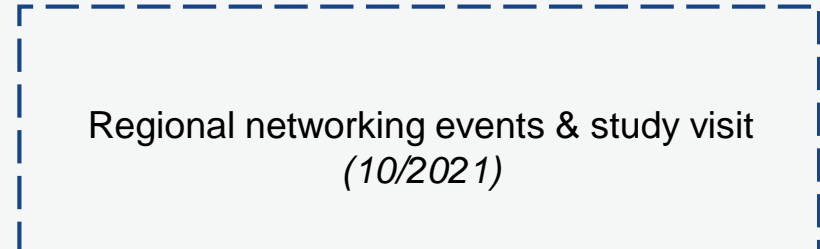

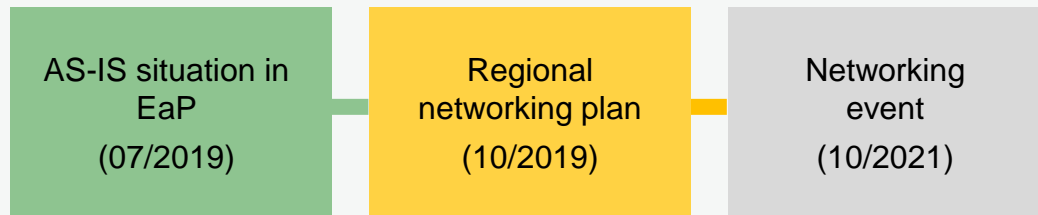

4.1. Common legislative framework

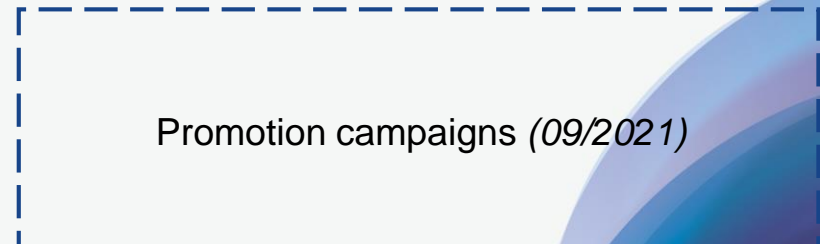

Final outputs

4.3. Networking of innovation players

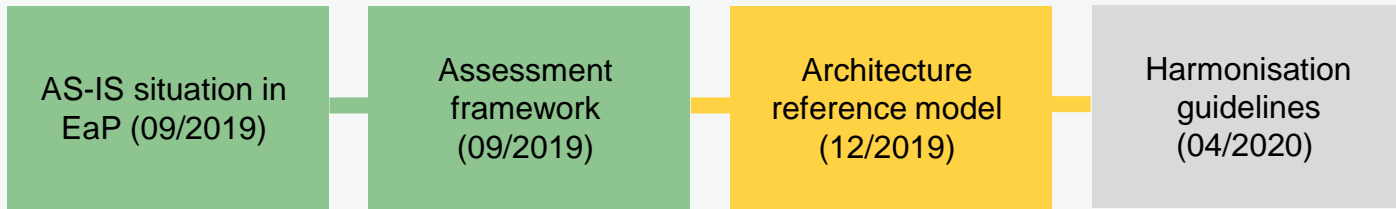

4.5. Promotion campaigns

eHealth – Year 1 dashboard

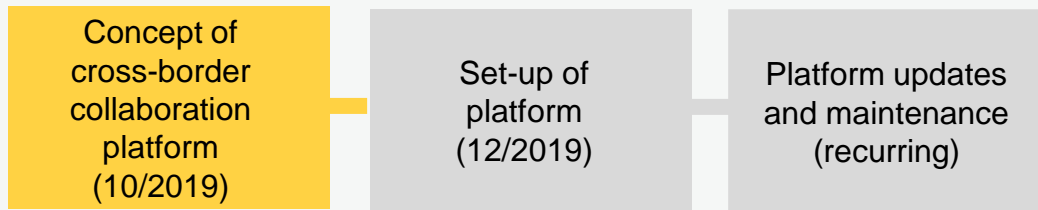

5.1 Develop common harmonisation and interoperability guidelines and standards for the EaP region

Final outputs

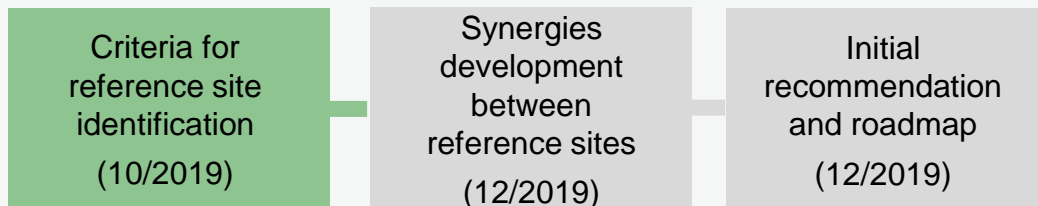

Developed common harmonisation and interoperability guidelines and standards for the EaP region (06/2020)

5.2 Implement a cross-border eHealth platform in the EaP region

Functional eHealth communication and collaboration platform (10/2021)

5.3 EaP involvement in EU initiatives

Aligned actions across EaP countries for cross border and related national eHealth initiatives (09/2021)

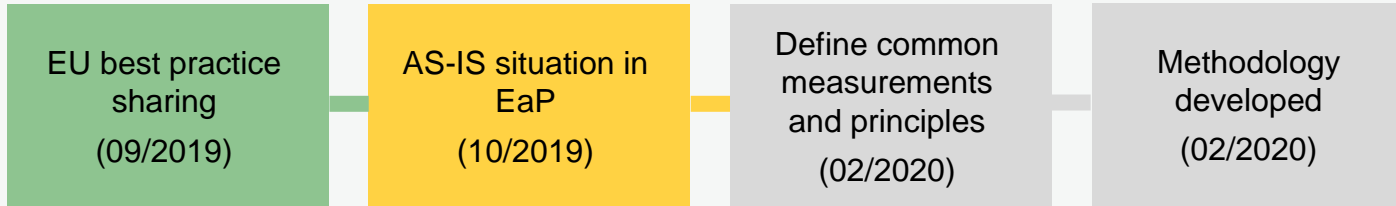

EU4Digital

Digital Skills – Year 1 dashboard

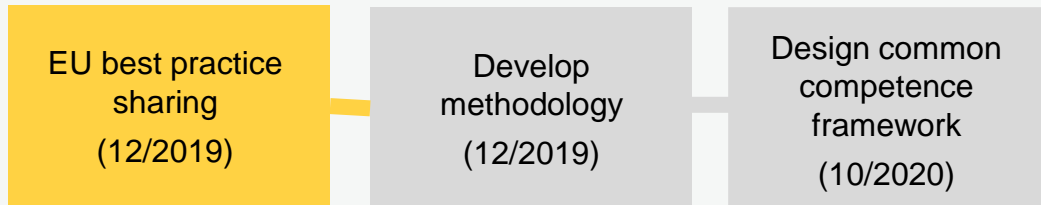

6.1 Define a common methodology in the EaP region

Final outputs

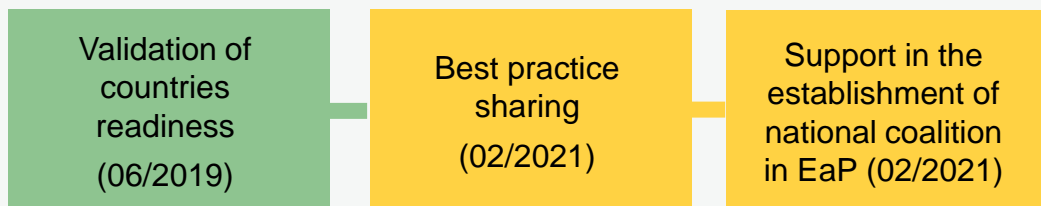

Methodology for measuring and forecasting digital skills gaps & remedial actions (02/2020)

6.2 Define a common competence framework for SMEs and microbusinesses

Common competence framework for SMEs and microbusinesses (09/2020)

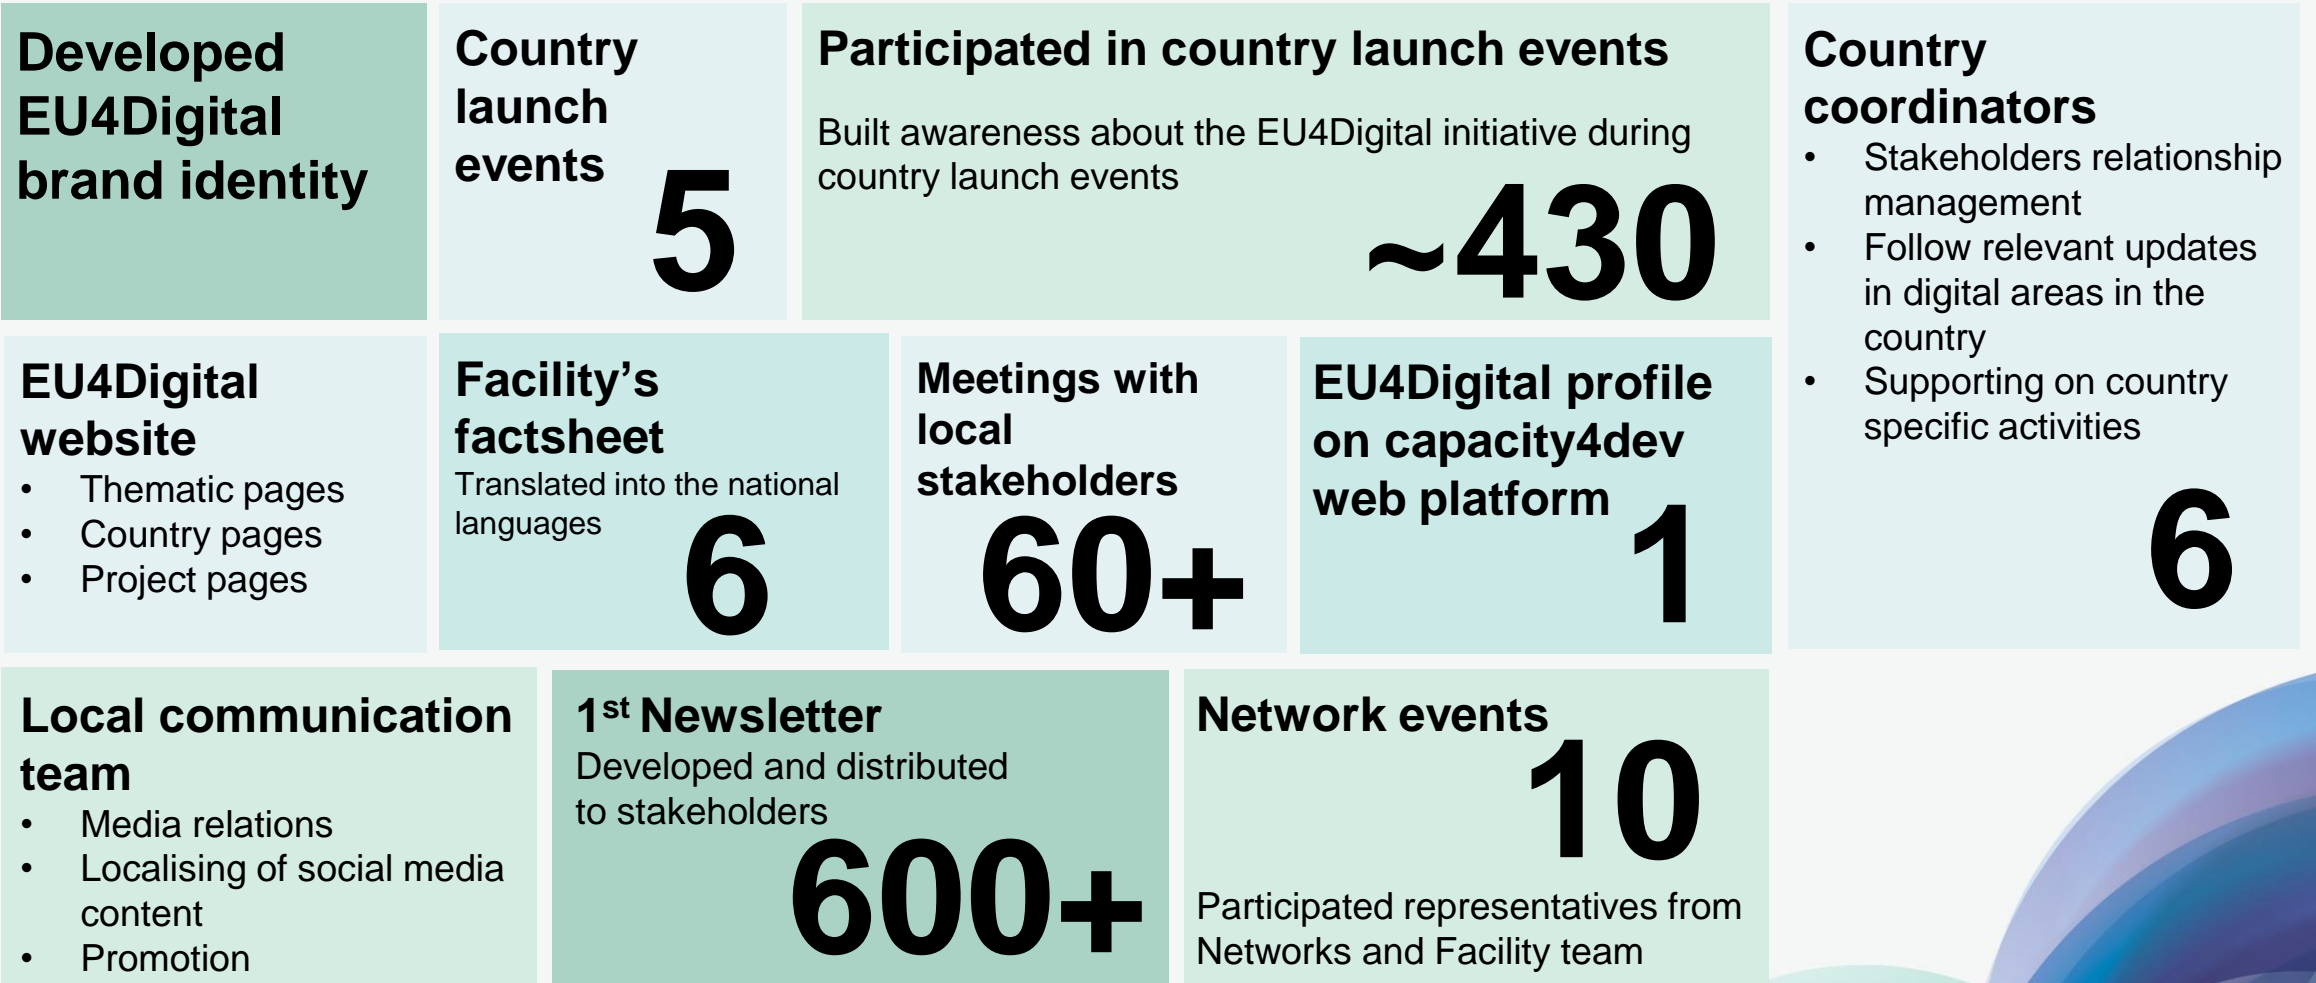

6.3 Create national coalitions for skills and jobs

Established national coalitions in BY, AZ, GE, MO and UA (AM already has a coalition) (01/2021)

Brand development & stakeholder involvement

EU4Digital

Thank You

EU4Digital Facility
