

EU4Digital ICT Innovation event on joining the EU networks and platforms: International Association for Trusted Blockchain Applications (INATBA)

CONCEPT OUTLINE

Date: 28 February 2022, 11:00 – 12:30 CET

Concept: The ICT Innovation stream under [EU4Digital Facility](#) will hold a virtual consultation session to further support the integration and joining of the EaP stakeholders to a specific EU network - [International Association for Trusted Blockchain Applications \(INATBA\)](#). The network was introduced during a dedicated networking event organised on the topic “[Digital innovations, blockchain and scale-ups in emerging markets](#)” in the policy area “Digital technologies” on 11-13 November 2019.

Language: The event will be held in English.

Topic: Meeting with International Association for Trusted Blockchain Applications (INATBA) to facilitate international collaboration and adoption of the blockchain technology across different fields.

Goals: The ultimate goal of this event is integration of EaP blockchain associations and policy-makers into the community of thought leaders and alike EU organisations that could foster a positive change in regulation and development of blockchain ecosystem in the Eastern partner countries.

Main beneficiaries addressed by EU4Digital activity:

- National blockchain associations;
- Industry players;
- Policy-makers specialising in blockchain.

The beneficiaries may enhance their capacity through access to thought leaders in the academic and government spheres as well as networking and knowledge building through INATBA's partnerships with leading standard-setting organisations and global initiatives.

For more information on benefits and opportunities provided by INATBA, see [here](#).
